RE: **CLASSES RESUMING – April 4, 2022**

Please be advised that the date has changed for classes to resume at Yellowquill University College. The last notice that went out indicated that we would resume classes as of February 28th. As of today, Covid 19 is making its way through the students and the staff. There are a number of students who are currently sick and staff are getting sick one at a time.

This is a difficult as whatever decision we make it will not please everyone -some students want to come back, others are scared to come back while others prefer to continue learning online.

As you are all used to the learning on-line process now we will continue with that until **April 4, 2022**. Restrictions are also changing over the month of March, so I have indicated to Instructors that they can let you into the building and work with you one on one if they want to. They can decide how many students to have at a time...you will just need to call or email them to make the arrangements. **The vaccine and mask requirement will still be in effect within the building.**

We want to do what is in the best interest to you as students, as well as your family and everyone you have contact with.

Stay safe and healthy and keep up with your studies. This will get better at some point!

Thank you
