WARMUP / REVIEW

Polygon Properties

Pentagon (regular)

1. Sum of interior angles (any pentagon)= _____

2. Angle at each vertex = _____

3. Central angle formed by one side: _____

4. Number of diagonals (any pentagon): _____

Heptagon regular

1. Sum of interior angles (any heptagon)= _____

2. Angle at each vertex = _____

3. Central angle formed by one side: _____

4. Number of diagonals (any heptagon): _____
